# Masuda Funai Stands in Solidarity

6/10/2020

The events of the last few weeks have deeply impacted us as individuals and as a country. Following the death of George Floyd at the hands of police, and remembering Ahmaud Arbery, Breonna Taylor, and countless others who have faced social injustice over the years, Masuda Funai reaffirms its condemnation of systemic racism, prejudice and inequality in all its forms.

As a law firm with deep roots in the cities of Chicago and Los Angeles, we stand in solidarity with all engaged in working to end institutional racism. We are committed to advancing the causes of social justice and equality in all aspects of social and professional life in which we are engaged.

But we know that more must be done – and words must be put into action. As the healing begins, we will continue to listen, learn and help to bring about a better future for everyone.

*Equal rights, fair play, justice, are all like the air; we ALL have it or  
NONE of us has it.*

- Maya Angelou
